AFL Applauds President Trump's Statement on Iran following the US targeted operation to eliminate terrorist mastermind Soleimani

The American Friends of Likud applauds President Trump's unequivocal statement today that as long as he is President, the US will never allow Iran to gain nuclear capability. His bold move to eliminate terrorist mastermind Qassem Soleimani, followed by today's remarks, protects American lives and makes clear the US's position towards Iran, the undisputed foremost state sponsor of global terrorism.

For years, the US and its allies have been victims of Iran's promotion of terror, whether directly or indirectly through its proxies. We are grateful to President Trump and his security advisors for finally taking concrete action, once and for all, to make it clear that Iran's behavior will no longer be tolerated.

This great fortitude to take decisive action and increase sanctions on Iran has positive ramifications not only for the US and the Middle East, including Israel, her staunchest ally in the region, but also globally. We strongly agree with the President that its global partners must finally distance themselves from the JCPOA and, with the US, we "must all work together toward making a deal with Iran that makes the world safer."

We thank President Trump for his leadership and for reestablishing American deterrence in the region.

AFL has developed unparalleled relationships with the Likud Ministers and Members of Knesset as well as other Israeli dignitaries and policy and opinion makers. Our programs feature these individuals as guest speakers, lecturers and educators. Our special relationships with Israel's leaders, dignitaries, journalists, etc. have been developed over the years and are based on a mutual belief in a right-leaning Likud philosophy.

AFL informs and educates its members through diverse programming for its President's Club, Young Leadership and General Membership. As a result, AFL provides its members with opportunities to meaningfully interact with Israel's leaders.
