We at the American Friends of Likud wish to express our profound gratitude to President Trump for his newly revealed peace plan for the Middle East. The "Deal of the Century" is truly visionary because, unlike all the peace plans that have previously been floated, it is based in reality. This approach will have a dynamic effect on the region and will serve global and US interests.

The President's plan recognizes Israel's sovereignty over Jerusalem, the Jordan Valley and all Jewish communities in Judea and Samaria, putting an end once and for all to the lies of those who deny the Jewish people's historical, legal and biblical connection to their ancient homeland. It allows for Israel to defend its borders and people by itself.

The President's plan also provides the Palestinian Arabs with a roadmap to govern themselves in their own state, with international support of \$50 Billion to help them build a thriving economy.

The choice is theirs. The Palestinians can accept the President's plan, which is their best chance for a successful state of their own, or they can continue with their failed obsession to drive the Israelis into the sea through rejectionism and terrorism - by attacks, war, and attempts at economic strangulation. We hope they look toward the future and seize the opportunity to have a better life for their people.

President Trump has once again proven himself to be the best friend Israel, the Jewish people and the Palestinians have ever had in the White House. He has crafted a way forward for two peoples to live in peace, prosperity and harmony. He has earned our everlasting gratitude.
